

# Tony Phan

Seattle, WA | 206-334-0193 | phantony.net | phan.tony125@gmail.com | LinkedIn/in/phantony125 | Github.com/rallysport206

## SUMMARY

Front-end engineer excited to contribute to the success of a software team, utilizing my skills and experience in software design and development.

## PROJECTS

### Paint Logic, *Front-End Developer*

[www.paintlogicseattle.com](http://www.paintlogicseattle.com)

Developed and designed a responsive static site for a Seattle based business. Built with HTML, CSS, JavaScript, and Bootstrap.

### Open Tee, *Full Stack Developer*

[opentee.herokuapp.com](http://opentee.herokuapp.com)

A RESTful app created and designed from my passion for golf. Created during my time at General Assembly, this app allows the user to search for golf courses via the Yelp API and schedule a tee time that is saved in the user's account. Built With: JavaScript, Node.js, Express, Sequelize, HTML, CSS, & Yelp Fusion API. The app was deployed on Heroku.

### Venture!, *Front-End Developer*

[venture-js.herokuapp.com](http://venture-js.herokuapp.com)

A responsive MERN app built in collaboration with two fellow developers at General Assembly. The app allows a user to search and save the top restaurant at their next travel destination. Built with: MongoDB, Mongoose, Node.js/Express, React.js, Javascript, Materialize, HTML, & CSS. The app was deployed on Heroku.

## CORE COMPETENCIES

JavaScript  
Python  
HTML  
CSS  
SQL (PostgreSQL & MongoDB)

### Libraries & Frameworks

React  
Node.js  
Bootstrap  
Express.js

### Tools & Platforms

Git / Github  
Visual Studio Code  
Heroku  
Linux  
Terminal  
NPM

### Other

Adobe Illustrator  
Adobe Photoshop  
AutoCAD  
SketchUP

## PROFESSIONAL WORK EXPERIENCE

### Research Assistant

09/2018 – present

Facebook Reality Labs (Oculus) via Q Analysts ☐, Redmond, WA

- Took charge of organizing field teams on locations for research and equipment testing. Delegated required tasks to each member's strengths that resulted in finishing the project 20% faster than estimated time.
- Troubleshoot equipment with Linux and general OS tools in Ubuntu and Fedora.
- Documenting bug reports, tickets, and any changes to software.

### Front-End Developer + Designer

03/2018 – present

Freelance ☐, Seattle, WA

- Consult with clients to develop, design, and maintain responsive websites based on business needs.
- Produced project concepts and maintain optimal workflow.

### Shop Manager

08/2011 – 11/2017

Paint Logic ☐, Seattle, WA

- Designed and maintain the company website. Providing ongoing support and consultation.
- Shop Manager with shop manager duties such as: prepping vehicles for rework and leading team through daily operations.
- Customer service duties as in billing, vehicle deliveries, and other duties as directed.

### Designer

03/2016 – 09/2017

Yuendi Design ☐, Tukwila, WA

- Produced 3D layouts and floor plans for kitchen and baths on multi-million dollar residential and commercial properties using AutoCAD and SketchUp.
- Handled multiple orders for projects to be delivered at agreed upon time and site.
- On-site photographer to document project progress for clients, general contractors, and website.

### Tech & IDX Support Specialist

10/2007 – 10/2010

Northwest Multiple Listing Services ☐, Kirkland, WA

- Primarily responding to tech support requests from real estate brokers/ appraisers.
- Troubleshooting matters relating to the NWMLS member site.
- Processed real estate offices and vendor IDX applications for approval before granting access to the NWMLS database.

## EDUCATION

### General Assembly, *Certified Full Stack Web Developer*

2018

- Completed a 12 week web immersive program.
- Worked on 35-45 in class projects, 4 major projects, 2 single day hackathons.

### Academy of Arts University, *Industrial Design*

2013
