General Assembly

Certified Full Stack Web Developer 2018
- Completed a 12 week web immersive program on Feb 2018
- Worked on 35-45 in class projects, 4 major projects, 2 single day hackathons

EXPERIENCE

Freelance

Front End Developer + Designer   Apr. 2018 to Current
- Consulted with clients to develop and design websites based on business needs.
- Produced project concepts and maintain optimal workflow.

General Assembly

Nov. 2017 to Feb. 2018
- Education in popular web technologies, database development, CRUD operations, RESTful routing, OOP, TDD, Git and version control.
- Built full-stack web applications both individually and in teams.
- Pair-programming, agile development, wire-framing, rapid prototyping, and peer code review.

PROJECTS

Open Tee - Full Stack Developer

A RESTful app created and designed from my passion for golf. This app allows the user to search for golf courses via the Yelp API and schedule a tee time that is saved in their personal login account. Built With: JavaScript, Node.js, Express, Sequelize, HTML, CSS, & Yelp Fusion API. The app was deployed on Heroku.

Venture! - Front End Developer

A responsive MERN app built in collaboration with two fellow developers at General Assembly. The app allows a user to search and save top restaurant at their next travel destination. Built with: MongoDB, Mongoose, Node.js/Express, React.js, Javascript, Materialize, HTML, & CSS. The app was deployed on Heroku.

BreakOUT - Front End Developer

A Clone of the classic arcade game developed and published by Atari and was influenced by another Atari arcade classic Pong. Designed to give the user an experience of playing in an arcade. Built with: HTML Canvas, CSS, JavaScript.
